Important Update: Targeted Provider Rate Increases (TRI)

The California Department of Healthcare Services (DHCS) enacted the targeted rate increase (TRI) fee schedule through State Plan Amendment (SPA) 23-0035. The DHCS APL 24-007 requires Managed Care Plans to implement TRI rates no later than Tuesday, December 31, 2024.

Community Health Center Network reviewed our network provider claims paid and will be completing the TRI rate implementation by the deadline of December 31, 2024. All eligible provider claims will be adjusted.

Eligible network providers will receive payment adjustments for TRI rates no later than December 31, 2024, for **date of service January 1, 2024 through December 31, 2024, including retroactive payment adjustments where necessary by the compliance date.**

For more information and additional resources about TRI rates, please see the links below:

We appreciate and thank you for the optimal level of clinical care you provide to our members and your continued partnership in making a difference in our community.

Thank you.
