

We've improved our check-in process to give your patients **a better testing experience**

Patients with appointments:

Quicker service with little to no wait times—appointments help ensure our team is ready to take care of your patients when they arrive for their visit

Walk-ins:

Patients can select the day's next available service time from the check-in screen

If no same-day appointments are available, patients can schedule for a different day or join a **standby list**^a

Standby-list order is displayed on digital screens in the waiting room, so patients know where they are in line

Patients can also use Quest's **mobile check-in** to receive a text alert when it's their turn Ensure **priority care** for your patients

Have your patients scan this QR code to schedule an appointment at QuestDiagnostics.com/ appointment

Improved check-in and standby appointments give patients more options
